ASSET INFINITY

A new generation complete Preventive
Maintenance and asset management
system with alerts and reminders to
stakeholders

www.assetinfinity.com

PREVENTIVE MAINTENANCE SCHEDULES (PMS)

- Simple planned maintenance system for managing schedules of equipment and assets, or locations
- Work order creation and assignment to technicians
- Create checklists in schedules for tasks to be done periodically
- Define Frequency/Occurrence of activities – daily, weekly, monthly
- Reminders to technicians through mobile notifications, SMS and email
- Alerts and escalations for reminders and delays
- Pending Activities tracking by using filters to make custom reports
- Labour, spares and consumable costs tagging to work orders

DEFINING MAINTENANCE SCHEDULES

- Create maintenance schedules for single or multiple assets.
- Define your own type of activities that recur daily, weekly, monthly or yearly.
- Set reminders for these activities on the same day, 1,2,3...30 days before the activity occurs

Schedule Activity

Asset: AST202314670 (Macbook) ×

Location: Head Office ×

Activity Type: Inspection

Description: Standard Check
